Important Safety Notice

GE Recalls Dishwashers

Dear Consumer:

In cooperation with Health Canada, Mabe has announced a voluntary recall to repair certain Moffat®, Beaumark®, GE® and GE Profile™ plastic tub dishwashers with front controls. According to Mabe's records, you may have purchased one of these dishwashers. Please read this notice carefully and visit Mabe's recall website or call Mabe's recall hotline if your dishwasher is included in the recall.

This voluntary recall is due to an electrical failure in the dishwasher's heating element that can pose a fire hazard. GE has received 15 reports (3 of which occurred in Canada) where the dishwasher heating element failed, seven of which resulted in fire and smoke damage beyond the unit. No injuries have been reported in Canada.

Consumers should immediately stop using the recalled dishwashers and call Mabe toll-free at: 1-888-943-5188 from 8 a.m. to 5 p.m. Monday through Friday Eastern Time to schedule a free repair, or for information about a rebate toward the purchase of a new dishwasher.

Consumers should not return the recalled dishwashers to the retailer where they purchased as retailers are not prepared to take the units back.

This recall includes approximately 90,400 units sold in Canada. Units were manufactured between March 2006 through July 2006, and November 2006 through April 2008.
